UNITY GAME DEVELOPER

Unity Developer with 2+ years of experience in multiplayer systems and VR development. Proven track record of optimizing performance and delivering scalable prototypes. with a solid foundation in computer science and data science I bring a dynamic blend of creativity, technical proficiency, and a passion for learning

PROFESSIONAL EXPERIENCE

Appsinnovate | Cairo, Egypt

Senior Unity Developer | Dec 2025 – Present

- Developed AR experiences using ARFoundation and WebAR
- Developed learning experiences and mini games for e-content team.
- Maintained published webgl projects.
- Added features and optimized multiplayer games.

Genesis Creations | Cairo, Egypt

Mid-Level Unity Developer | Jan 2024 – Dec 2025

Junior Unity Developer | Nov 2023 – Dec 2023

- Designed 2+ multiplayer prototypes using Mirror/PUN.
 - Developed and Maintained VR Solutions and Training Development.
 - Integrated SDKs and Services with published games.
 - Debugging using tools like unity profiler and logcat.
 - Architected Custom shaders using Unity Shader Graph.
 - Implemented Matchmaking and Server Allocation using Playfab Services.
 - Wrote GraphQL and REST API calls.
 - Developed POC projects using Unreal engine
-

EDUCATION & CERTIFICATIONS

- B.Sc. in Computers & AI | Cairo University | GPA: 3.21 | 2023
 - Machine Learning Specialization | Stanford University (Coursera) | 2022
 - Game Development with C# and unity | Colorado University (Coursera) | 2020
-

TECHNICAL SKILLS

- Game Dev: Unity, Unreal, C#, CPP, VR/AR SDKs, Shader Graph, Profiler, Animator, URP
- AI/ML: PyTorch, TensorFlow, Numpy, Pandas
- Tools: Git, Firebase, Playfab, Clickup, SQL
- Soft Skills: Agile Development, Mentoring, Technical Documentation

TECHNICAL PROJECTS

Graduation Project: Visualizing Novels Using Generative AI

- Utilized generative AI to create visual representations of novel scenes.
- Implemented using Python and various AI libraries.

Sinai Heroes

- First-person shooter mobile game with 50k+ downloads where players assume the role of Egyptian army heroes participating in historical military operations in Sinai.

VR-Connect

- Virtual reality training simulator designed to train, guide, and evaluate medical staff in real-world scenarios such as cleaning procedures and compliance with medical standards.

Ballpop!

- Fast-paced arcade game where players must prevent balls from flooding the screen

Biohazard Breakout

- Shooter Survival Game – Multiplayer Cooperative Experience with Hidden Impostor Mechanic.

Digito

- Digital twin of a real-world restaurant, allowing users to view, interact with, and access real-time data and objects virtually.
